

Grand&Johnson

Congratulations on your purchase!

Grand & Johnson specialises in conceiving and creating exceptional items. Every day, they work on interior designs with passion and enthusiasm. With an eye for detail, the duo focuses on understated and modern interior design.

Product specifications

Material Tatami is a hand-tufted carpet, available in Wool with Eucalyptus. When using natural materials, texture and colour may vary slightly, this is perfectly normal.

Maintenance

Eucalyptus with Wool rugs have some specific features. One of them is the different colour that it presents, especially when it is a plain rug. Along the surface of the rug, slight variations of colour occur (similar to what occurs with velvet), which gives a different effect which becomes more evident in lighter rugs. This does not constitute a defect; this is simply a characteristic of these cellulosic raw materials. During the first months it is normal that pilling may occur. This is not a manufacturing defect; it is another common characteristic of this type of fibers. The quantity of pilling will start diminishing after some weeks of use and it does not affect in any aspect the rug's resistance, aspect and quality. It is very important to vacuum the rugs often, in order to clean it and also to recover the pile, which might present some height differences due to high people traffic and wear. Naturally, lighter rugs need to be cleaned more than darker ones. Steam cleaning or any other methods which involve a substational increase of temperature are not recommended. Remove stains immediately and if problems with stains occur we advise to contact a professional carpet cleaner.

Colour

Because of the nature of the quality each rug has its unique colour. The colour may differ and depend on each dye bath. Always avoid direct sunlight. Longer periods of exposure to direct sunlight will damage the rug and lead to discolouring.

Dimension variations

Dimensions may vary up to 3%. Your rug may stretch lightly. This is fully normal.

Fire Classification

Fire classification - EN 13501-1:2010-Cfl-s1.

Primary backing

100% Polyester

Secondary backing

100% Polyester

Pile weight

4

Total weight

4,5 - 5,5

Anti-slip

Anti-slip is available separately in two fixed dimensions, as a roll for installation, or cut to size for this particular carpet.

Extra information

Do not store this carpet in rolled-up form for longer than 3-4 weeks

Warranty

Please refer to our regular terms.
