

INDIVIPRO

CARPETS & RUGS

Congratulations on your purchase!

Indivipro carpets & rugs offers an extensive variety of quality carpets and tapestries, available in a wide range of materials such as wool, silk, linen, bamboo, viscose, polyamide and handwoven polyester, numerous color options, and available in almost all required sizes.

Product specifications

Material LAGOS is a hand-tufted rug collection made of 100% PA 6.0. These nylon fibres are tough, possessing high tensile strength, elasticity and lustre. This collection is 100% SBR-free and is entirely geared towards ensuring high performance in all kinds of environments.

Maintenance

Polyamide is strong, it does not tear, it does not crease, retains its shape and dries very quickly. It is elastic and water-repellent. Regular vacuuming ensures that you will enjoy years of pleasure from this rug.

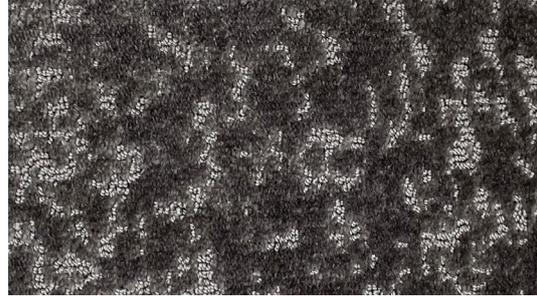

Remove stains immediately and if problems with stains occur we advise to contact a professional carpet cleaner.

Colour

Because of the nature of the quality each rug has its unique colour. The colour may differ and depend on each dye bath. Always avoid direct sunlight. Longer periods of exposure to direct sunlight will damage the rug and lead to discolouring.

Size deviation

Size deviations are up to about 3% possible. Because of the nature of this quality, this product can stretch a little bit.

Pile weight (kg/m²)

1,2

Total weight (kg/m²)

2,2

Backing

100% SBR free

Anti-slip

Anti-slip is available separately in two different fixed sizes, as a roll for installation or fitted custom made to the carpet.
