Product Specifications

Materials

The BLURRY HORIZON is a hand-tufted carpet, available in a mix of Eucalyptus, Wool and bamboo. When using natural materials, texture and colour may vary slightly, this is perfectly normal.

Maintenance

Regularly turning rugs is crucial to ensure even wear and light exposure across the entire surface. When furniture is placed on a rug, using rug protection helps prevent damage to the pile and preserves its overall appearance.

Maintaining the appearance of your rug requires regular cleaning. Opt for a high-powered vacuum cleaner, around 1200W, and vacuum in the direction of the pile without using a rotary brush. Lighter rugs necessitate more frequent cleaning than darker ones. Avoid steam cleaning or methods involving significant temperature increases. For this collection, we highly recommend professional injection-extraction washing at low temperatures and pressures. For thorough cleaning, enlist the services of a specialized rug cleaning company.

Colours

The natural quality lends each carpet a unique colour. Colour intensity may vary depending on the dye bath. Avoid direct sunlight at all times. Longer exposure to sunlight will cause damage and fading.
