## CARPETS & RUGS

### Congratulations on your purchase!

Indivipro carpets & rugs offers an extensive variety of quality carpets and tapestries, available in a wide range of materials such as wool, silk, linen, bamboo, viscose, polyamide and handwoven polyester, numerous color options, and available in almost all required sizes.

### Product specifications

**Material** **MONTREAL** is a hand-tufted rug collection made of 100% Merino Wool. The fibers are products of nature and as with all natural products, a slight deviation in texture and colour may occur between dye lots.

### Maintenance

During the first months it is normal that pilling may occur. This is not a manufacturing defect; it is another common characteristic of this type of fibers. The quantity of pilling will start diminishing after some weeks of use and it does not affect in any aspect the rug's resistance, aspect and quality. It is very important to vacuum the rugs often, in order to clean it and also to recover the pile, which might present some height differences due to high people traffic and wear. Regular cleaning is essential to maintain the appearance of your rug. Use a good vacuum cleaner, which should have 1200W of power and vacuum in the direction of the pile. Merino Wool rugs must be cleaned regularly. Naturally, lighter rugs need to be cleaned more often than darker ones. Steam cleaning or any other methods which involve a substantial increase of temperature are not recommended. For Merino Wool rugs we recommend water cleaning (water temperature cannot be higher than 30°). For a deeper cleaning, please use a specialized rug cleaning company.

### Colour

Because of the nature of the quality each rug has its unique colour. The colour may differ and depend on each dye bath. Always avoid direct sunlight. Longer periods of exposure to direct sunlight will damage the rug and lead to discolouring.

### Size deviation

Size deviations are up to about 3% possible. Because of the nature of this quality, this product can stretch a little bit.

### Pile weight (kg/m2)

3

### Total weight (kg/m2)

3,5

### Backing

Synthetic latex with resistance to temperatures over 200 °C. This backing is non-flammable and does not maintain combustion. However it is necessary to inform you that if a wooden floor where the carpet have been applied begin combustion, the carpet will eventually ignite.

### Anti-slip

Anti-slip is available separately in two different fixed sizes, as a roll for installation or fitted custom made to the carpet.

### Extra information

Please do not store rolls packed longer than 3-4 weeks.

### Warranty

Please refer to our terms & conditions.
