Wearability	$\geq$ 4
Water fastness	$\geq$ 5
Thermal resistance	TOG 1,29

### Maintenance

Polyamide is strong, it does not tear, it does not crease, retains its shape and dries very quickly. It is elastic and water-repellent. Regular vacuuming ensures that you will enjoy this rug for years.

### Colour

Because of the nature of the quality each rug has its unique colour. The colour may differ and depend on each dye bath. Always avoid direct sunlight. Longer periods of exposure to direct sunlight will damage the rug and lead to discolouring.

### Size deviation

Size deviations are up to about 3% possible. Because of the nature of this quality, this product can stretch a little bit.

### Anti-slip

Anti-slip is available separately in two different fixed sizes, as a roll for installation or fitted custom made to the carpet.

### Extra information

Please do not store rolls packed longer than 3-4 weeks.

### Warranty

Please refer to our regular terms.
